

[template](#)

PlayGround

test123

collab	when	who?
me&you collab	back then	participants v
me&you collab2	just now	show participants me and you and a dog named boo

text before

another test

v

text after blah

...

folded plugin inline test text before [unfold](#) blah blah this is hidden blah blah text after

This is example [text](#) with some of it only shown when you unfold it. And after that the text just continues to flow in the same paragraph.

[show table](#)

This table	is only shown	when you unfold the block
